Nino Standard

08848 This very durable cot is equipped with 2 lowerable sideguards and complies with the strictest safety requirements.

Frame

- The frame is made of round steel tubes.
- The bed frame rests on 4 design castors Ø 100 mm with brakes.

Mattress platform

- The mattress platform is made of a perforated steel plate.
- The mattress platform with optional Trendelenburg adjustment can be adjusted in 4 different positions by means of a handle on the outside of the bed.

Sideguards

- The sideguards are made of steel round tubes.
- The distance between the round rails is 60 mm at the most.
- The sideguards can be put in 3 different positions: lowest position, middle high position (34,5 cm) and highest position.
- The lowerable sideguards glide over 2 solid steel guide rails.
- The sideguards can only be unlocked by using your both hands.

The cots are made in accordance with the European norm EN 716 and comply with the Medical Devices Regulation EU 2017/745
