

ZenSo E-move

20052 The ZenSo E-move relax chair is equipped with an electrically adjustable leg and back support, easily operated through an intuitive hand control or integrated control in the upholstered sides.

Support

- Firmly welded steel construction in round tube \varnothing 27 mm with 2,5 mm wall thickness.
- Finished with epoxy coating.
- All edges and corners have been rounded.
- The legs are equipped with synthetic glides.

Backrest

- Made of an ergonomically preformed plywood shell of 12 mm.
- Upholstered with fire-retardant foam in 2 different density zones to guarantee an excellent seat comfort.
- Fully upholstered with decorative stitching.

Seat and legrest

- Seat and legrest are 1 piece, easy removable without needing any tools.
- Seat and legrest are made of MDF board of 12 mm, covered with fire-retardant HR foam with 3D structure to guarantee an excellent seat comfort.
- Fully upholstered with decorative stitching.
- The rounded seat in front stimulates a fluent blood circulation.
- Optimal leg support, thanks to the telescopic legrest (+70 mm) which also prevents wrinkles in the upholstery.
- Free choice of seat height thanks to a spacer (42,5 cm, 45 cm or 47,5 cm).
- Choice between 2 different seat depths: 46 cm (small) or 50 cm (large).

Lowerable armrests

- The ergonomic front design of the synthetic armrests makes it easy to stand up or sit down.
- Standard equipped with dinner tray attachments.
- Two solid epoxy-coated axes to adjust the armrests in height in 4 different positions.
- Locked downwards by means of a spring lever.
- In their lowest position, the armrests are on the same level as the seat.

E-move mechanism:

- Two actuators make sure that the backrest, seat and legrest tilt into a 'zero gravity' position (*).
- The backrest and legrest are individually adjustable.
- The angle between the seat and backrest ranges from 95° (seating position) to 120° ('zero gravity' position).
- When the relax mechanism is activated, the seat inclines to a 20 degree angle.
- The chair can be adjusted by means of a hand set. It is possible to attach the hand set at the side of the chair
- The operation of the back, leg, and simultaneous functions is done through a hand switch or integrated controls (only with closed, upholstered sides).

Colours

We would like to refer to our extensive colour gamut.
Sample card + samples available on request.

Accessories

We would like to refer to our
accessorylist.

(*) "Zero gravity" position: this seat/lying position is based on NASA data. A neutral body position converts all muscle power into a biomedical balance. Source: "From outer space to you", Omni, March 1994.
