Domus Classic Flex

08901 The central idea behind the Domus relax chair is to offer optimal seating comfort in peace and quiet. The Classic mechanism can be easily adjusted by pushing yourself off a little from the chair, and this without using any levers. The optional “raising & sitting assist” provides ergonomic support for getting up and sitting down, thanks to the supporting seat movement.

Support

- The rounded sides consist of 2 OSB boards of 30 mm, and are firmly connected with a steel structure.
- The sides are upholstered with fire-retardant foam.
- The upholstery is finished with imitation leather and decorative stitching.
- Comfortable rounded armrests of ± 4 cm.
- All edges and corners have been rounded.
- No visible fastening elements.
- Design castors Ø 65 mm with brake (to move the seat without a patient).
- Optionally possible on solid beech legs, fitted with synthetic floor protectors at the front and two integrated auxiliary wheels at the back.

Seat

- Removable seat in melaminated MDF, thickness: 12 mm.
- The rounded seat in front stimulates a fluent blood circulation.
- Comfortable seat height of 45 cm.
- Upholstered with fire-retardant foam. Two different density zones guarantee optimal seating comfort.
- The upholstery is finished with imitation leather and decorative stitching.

Backrest and legrest

- The backrest consists of an ergononomic pre-shaped plywood shell, thickness 12 mm.
- Upholstered with fire-retardant foam. This foam has 3 different density zones to guarantee optimal seating comfort.
- The upholstery is finished with imitation leather and decorative stitching.
- Legrest: plywood, thickness 10 mm, upholstered with fire-retardant foam and finished with imitation leather.

Classic mechanism

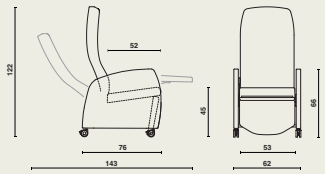

- Easy adjustment in 3 positions, i.e. seat position, reading position, and relax position.
- The relax mechanism first raises the legs, after which it is possible to further incline the entire relax chair.
- Easy to adjust by just pushing yourself off, without needing a lever.
- Guaranteed optimal seat comfortin every position: when the relax chair is reclined, the angle between the backrest and the seat remains constant.
- Optimal leg support, thanks to the telescopic legrest.
- When the relax chair is put in the seat position, the legrest is turned inwards so that you can stand up without any problem.

Colours

We would like to refer to our extensive colour gamut.
Sample card + samples available on request.
